

# Special needs Polairis

## Closed circuit cooling towers

### Special needs Polairis

Our ongoing [R&D](#) investment helps BAC offer you a complete set of solutions **for Polairis™ evaporative closed circuit coolers that meet your needs**. Plus, we also cater for extra requirements such as:

#### Plume control

Tap into abundant BAC plume control experience. For the Polairis line, we offer [plume abatement coils](#) with **reduced plume and extended dry operation periods**.

Check out our [BAC plume visualization software](#) for insight into **how your cooling equipment will plume** before installation. Helping you choose the best and most effective plume abatement solution.

#### Water savings

You need water for evaporative cooling. At BAC, however, we offer acclaimed and advanced water saving technologies. Helping in this aim are:

- [Electric water level control package](#)
- [Water treatment equipment](#)
- [Plume abatement coil](#)

## Enhanced hygiene and water care

Water circulates in closed circuit coolers and it is important to avoid excessive accumulation of dissolved solids. The following options help keep your cooler clean:

- [Remote sump connection](#)
- [Water treatment equipment](#)
- [Clean out port](#)
- [Filters](#)

To control biological growth and scale formation, the water quality of the circulated water should be checked regularly. [Water quality guidelines](#) can be found in the [Knowledge center](#) of the website.

## Year-round reliable operation

Inspect and maintain your cooler and protect it against extreme weather for year-round reliability. The options below help keep your cooler running smoothly and reliably and facilitate maintenance.

- [Remote sump connection](#)
- [Water treatment equipment](#)
- [Clean out port](#)
- [Filters](#)
- [Electric water level control package](#)
- [Plume abatement coil](#)

**Do you too want to benefit from the above solutions?** Contact your [local BAC representative](#) for more information.
