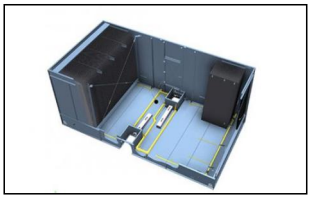
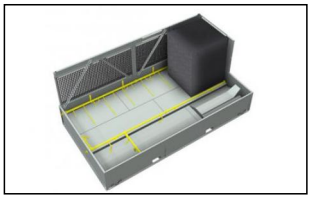
Sump sweeper piping

Water treatment and filtration equipment





Key benefits

- Improved filtration system performance
- Year-round system hygiene
- Less equipment cleaning
- Prevents under deposit corrosion

For optimal cooling performance and maximum system hygiene install also

- an automatic bleed control (BCP 0 D)
- water treatment equipment for liquid (BCP 2 D - BCP 3 D) chemicals
- a filtration system (PF 64 separator)

A sump sweeper piping system **increases water circulation and agitation in** the basin and is designed to be used in combination with a filtration system.

Sump sweeper piping can be **factory-installed** or **retrofitted** on-site.
